United States-Caribbean Basin Trade Partnership Act (CBTPA)

CERTIFICATE OF ORIGIN

OMB 1515-0226

19 CFR 10.234, 10.236

See Reverse for Instructions and a list of the tariff items with which this certificate may be used.

For the purpose of obtaining preferential tariff treatment for goods of the Caribbean Basin beneficiary countries, this document must be completed legibly and in full by the exporter and be in the possession of the importer at the time the CBTPA claim is made.

The producer may voluntarily complete a certificate for use by the exporter in filling out their own certificate.

Note: The purchase of a good in the Caribbean Basin beneficiary countries does not render it originating. If the origin of the good cannot be determined, the exporter must assume that the good does not originate.

PLEASE PRINT OR TYPE. SEE INSTRUCTIONS ON REVERSE.

INSTRUCTIONS

- Field 1** State the full legal name and address (including country) of the exporter. If a producer completes the certificate, indicate "N/A". (Definition of exporter: NAFTA Article 514)
- Field 2 (a & b)** 2a - *Complete field* if the Certificate covers a single shipment of a good by providing the invoice number shown on the commercial invoice
2b - *Complete field* if the certificate covers multiple shipments of identical goods as described in Field 5 that are imported into the United States for a specified period of up to one year (blanket period). "FROM" is the date upon which the Certificate becomes applicable to the good covered by the blanket Certificate. (The "FROM" date may be prior to the date of signing this Certificate; however, the signed Certificate must be in the possession of the importer at the time the claim for preferential tariff treatment is made.) "TO" is the date upon which the blanket period expires. The importation of a good for which CBTPA preferential tariff treatment is claimed based on this Certificate must occur between these dates. (Definition of identical: NAFTA Article 514)
- Field 3** State the full legal name and address (including country). If more than one producer's good is included on the Certificate, state "VARIOUS" and attach a list of all producers, including the legal name and address (including country). If you wish this information to be confidential, it is acceptable to state "Available to Customs upon request". If the producer and the exporter are the same, complete field with "SAME". (Definition of producer: NAFTA Article 415)
- Field 4** State the full legal name and address (including country). If the importer is not known at the time the Certificate is completed, or if there are multiple importers, it is acceptable to state "Available to Customs upon request". If a producer who is not also the exporter completes this Certificate, indicate "N/A".
- Field 5** Provide a full description of each good and the processing activities used to manufacture the good within the beneficiary country or countries. The description should be sufficient to relate it to the invoice description and to the Harmonized System (HS) description of the good.
- Field 6** For each good described in Field 5, identify the HS tariff classification to six digits. If the good is subject to a specific rule of origin in Annex 401* that requires eight digits, identify to eight digits, using the HS tariff classification of the country into whose territory the good is imported.
- Field 7** For each good described in Field 5, state which criterion (A through D, as defined in NAFTA Article 401) is applicable.
- Preference Criteria (A -D)** Please refer to the Articles / Annexes of the North American Free Trade Agreement (NAFTA) for exact text.
- A** The good is "wholly obtained or produced entirely" in the territory of one or more of the CBTPA countries, as defined in NAFTA Article 415. **Note:** This criterion does not include 'de minimis' claims.
- B** The good contains some non-originating materials, is produced entirely in the territory of one or more of the CBTPA countries and satisfies the specific rule of origin, set out in Annex 401*, that applies to its tariff classification. The rule may include a tariff classification change, regional value-content requirement or a combination thereof. The good must also satisfy all other applicable requirements of Chapter Four.
- C** The good is produced entirely in the territory of one or more of the CBTPA countries exclusively from originating materials. All materials used in the production of the good must qualify as "originating" by meeting the preference criteria A-D.
- D** Goods are produced in the territory of one or more of the CBTPA countries but do not meet the applicable rule of origin, set out in Annex 401*, because certain non-originating materials do not undergo the required change in tariff classification. The goods do nonetheless meet the regional value-content requirement specified in Article 401(d).
- the good was imported into the territory of a CBTPA country in an unassembled or disassembled form but was classified as an assembled good, pursuant to HS General Rule of Interpretation 2(a); or
 - the good incorporated one or more non-originating materials, provided for as parts under the HS, which could not undergo a change in tariff classification because the heading provided for both the good and its parts and was not further subdivided into subheadings, or the subheading provided for both the good and its parts.
- Field 8** For each good described in Field 5, state "YES" if you are the producer of the good. If you are not the producer of the good, state "NO" followed by (1) or (2), depending on whether this certificate was based upon: (1) your reliance on the producer's written representation (other than a Certificate of Origin) that the good qualifies as an originating good; or (2) a completed and signed Certificate of Origin for the good, voluntarily provided to the exporter by the producer.
- Field 9** For each good described in Field 5, where the good is subject to a regional value content (RVC) requirement, if the RVC is calculated according to the Transaction Value Method, indicate "TV"; if the RVC is calculated over a period of time according to the Net Cost Method, indicate "NC" and identify the beginning and ending dates (DDMMYYYY); if no RVC is used, indicate "No". (Reference: NAFTA Articles 402.1, 402.5)
- Field 10** For each good described in Field 5, indicate the country of origin as per 19 CFR Part 134 and 19 CFR 10.195 (CBI Origination rules), except for textile and apparel articles, whose origin shall be determined as per 19 CFR 102.21.
- Field 11** This field must be completed, signed and dated by the exporter. When the Certificate is completed by the producer for use by the exporter, it must be completed, signed and dated by the producer. The date must be the date the Certificate was completed and signed. The signed Certificate must be in the possession of the importer at the time the claim for CBTPA preferential tariff treatment is made. For CBTPA claims made after importation, the date of the Certificate may be subsequent to the date of the importation of the goods. (Reference: NAFTA Article 502.3)
